SUMMARY

Information Systems student with a strong interest in Full Stack Web Development and modern web technologies, backed by hands-on industry experience as a Front End Developer and Team Leader at a software house. Experienced in building responsive and user-friendly web applications using Next.js, React.js, TypeScript, Laravel, JavaScript, and Tailwind CSS, with growing hands-on experience across both front-end and back-end development. Passionate about building end-to-end digital products, continuously expanding technical skills, and applying practical experience to solve real-world problems.

WORK EXPERIENCE

Front End Web Developer Intern
2025 - 2026

M-One Solution Software House

- Developed responsive and user-friendly web interfaces based on Figma designs using Next.js, React.js, TypeScript, and Tailwind CSS.
- Collaborated in developing multiple web-based projects and applications.
- Integrated REST APIs and optimized front-end functionality to improve user experience.
- Coordinated team workflows, distributed tasks, monitored project progress, and maintained communication between team members and supervisors.
- Contributed to the development of a web application for discovering hangout places in Sukoharjo Regency.
- Contributed to the development of a school website project for client needs with responsive and modern UI implementation.
- Participated in developing additional personal and collaborative portfolio projects.
